Submersible Mixer Type ABS XRW 650

60 Hz

Compact, submersible, stainless steel mixer, designed to achieve an optimum flow pattern in a wide range of mixing and stirring applications, in large tanks and open waters.

Construction

The submersible mixer is designed as a compact, water-pressuretight unit, including propeller and integrally casted installation bracket for attachment to a square guide tube.

Maximum allowable temperature of the medium for continuous operation is 40 $^{\circ}$ C (104 $^{\circ}$ F).

Motor:

Premium Efficiency, IE3 equivalent, sensorless permanent-magnet motor with high overload capacity; 60 Hz; 24-pole; 480 V* using variable frequency drive (VFD) control. Protection type IP 68, with stator insulation Class F.

Start-up:

variable frequency drive (VFD) Max. submergence 20 m (66 ft).

Propeller:

Technically optimized, axially operating 3-blade propeller with very good self-cleaning effect for vibration-free operation. The propeller is designed to achieve high thrusts and therefore a high flow capacity in axial direction.

Solids deflection ring:

Enhanced solids deflection ring design. The patented solids deflection ring protects the mechanical seal from damage by ingress of solid or fibrous matter.

Bearings:

All bearings are lubricated-for-life and maintenance-free, with a calculated lifetime of more than 100,000 h.

Shaft sealing:

Sic-Sic, covered mechanical seal at medium side. NBR O-rings and lip seals.

Seal monitoring:

DI-system with sensors in the oil, motor and cable connection chambers.

Temperature monitoring:

PTC thermistor in the stator which opens at 140 °C (284 °F).

Cable:

10 m (33 ft) sewage-resistant, shielded, VFD power cable type 37-102VFD.

Optional lengths:

15 m (49 ft), 20 m (66 ft), 30 m (98 ft), 40 m (131ft), 50 m (164 ft).

Ontions

Explosion-proof version, additional seal (Sic-C) at motor side, flow ring, seals in viton, vertical angle adjustment, vortex shield, vibration damper, lifting hoop.

Weight:

150 kg (331 lbs). With flow ring 165 kg (364 lbs).

System data

Motor	PM 55/24	PM 75/24	PM 100/24
