**THICKENED SLUDGE. PRIMARY SEWAGE.  
THE SLUDGE MASTER PUMPS IT ALL.**

The severe duty HPE Series is specified for municipal and industrial sewage, sludge, food processing waste and much more. This pump series is available with single ball valve or dual ball valve configurations for pumping higher percentages of solids.

With the HPE your facility can pump up to 556 GPM. Wastecorp also offers leak resistant packing systems, guided plunger assemblies for less component wear and pressure switches to help protect your pump.
