THE PUMP OUT WITH ATTITUDE.

If you want to improve fluid transfer productivity at your train station, marina, campground or military pump out application, check out Wastecorp's powerful 50 gallon electric or gas powered honey wagons. This honey wagon series is designed to maneuver through tight train station platforms, docks or narrow paths with all the tools you need to empty RV black water, septic waste or marine wastewater.

PROFESSIONAL PUMP SYSTEMS USING MUD SUCKER® TECHNOLOGY - THE WASTECORP ADVANTAGE.

A COMPLETE PACKAGE

The standard electric diaphragm pump system includes the industry leading 2", 2FAC-EC Mud Sucker Diaphragm Pump and a 20 ft. crush-proof hose and attachments (longer hose packages are available for transportation authorities).

MANUAL PUMP OUT AVAILABLE

The manual pump system includes the Sludge Sucker® hand pump, a professional manual pump system designed in North America.

From the heavy duty hose stand and frame, to the premium polyethylene tank, Wastecorp's honey wagons are the new sanitation system standard for marinas and campgrounds.

THREE WAY VALVE SYSTEM

Wastecorp's "pump-in, pump out" valve system allows you to transfer waste both into or out of the tank using the same pump. Just move the lever and you're ready to go.

† See pump specifications for solids handling information.

WASTECORP® HONEY WAGONS

HW 50™ Gallon

- Self Serve Bilge Waste Pump
- RV Black Water Pump Out
- Waste Oil Containment

50 gallon polyethylene waste tank

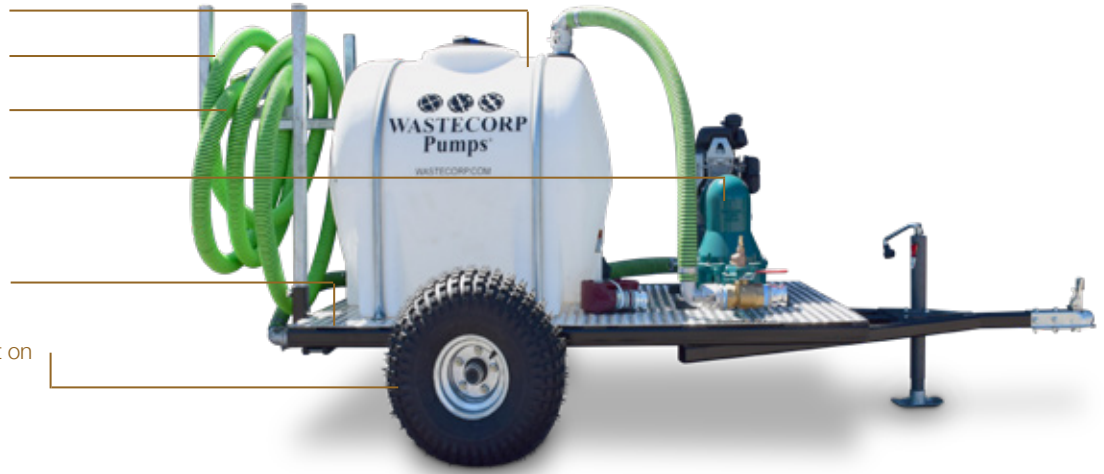

Premium hose rack

Premium non-collapsible hosing

Exclusive Mud Sucker pump technology manufactured by Wastecorp standard.
