OPTIONAL ACCESSORIES

HIGH VOLUME WATER TRANSPORTATION DELIVERED BY A PROFESSIONAL.

When you're hauling higher volumes of water around your job site, stability and proven reliability matter most. Wastecorp is an ISO 9001 manufacturer and supplier of industrial rated water trailers. Our WT-1600 Series includes a load stabilizing triple axle trailer to manage tank surge and weight. You get the same galvanized trailer frames and decks that our water trailers are famous for, and you also get all the professional components for long term, high volume water distribution needs.

PROFESSIONAL WATER TRAILERS USING PREMIUM COMPONENTS - THE WASTECORP ADVANTAGE.

HIGH QUALITY COMPONENTS

Your Wastecorp WT-1600 Series is designed and engineered with innovative features like standard hose and accessory storage, brass valves, helix hosing and professional water distribution hosing.

CORROSION RESISTANT TRAILERS AND DECKS

A unique advantage of Wastecorp's WT-1600 Series is that we galvanize all of our DOT approved models. This means that the trailer frame and diamond plate deck gets protected from weather and so does your investment.
